## Hobbies & Interests

I love being creative. Whether it's making music, drawing, painting , or coding, I love being myself. I make music every day, it's my most favorite hobby but I'll take any chance to be creative. Learning is also something very important to me. I try my best to learn new things every single day no matter how big or small. I'm pursuing a career in front-end developing but I am pretty comfortable with back-end as well. I take pride in my abilities to learn quickly and proficiently, while still retaining previous skills I already have. My overall goal in my career is to be as well rounded as I can be.

## Employment History

### Road to Hire

June 2018 - Present

Road To Hire Student

I've learned so many things from this program. I have not even completed it yet and I feel like a new person already. Learning so much about presenting looking professional, and other soft skills made me realize how important those skills actually are. I never had to focus on soft skills that often so it is so refreshing being taken out of my comfort zone. I love learning new things and I have never had very good soft skills so its nice becoming a more well-rounded person. Road to Hire and Red Ventures have given me the opportunity of a life time and for that, I am grateful.

### Walmart

Cashier

Waxhaw, North Carolina  
January 2018 - June 2018

I was hired as a cashier but they had me getting carts, stocking, organizing the back, train new employees, run customer service, and zoning anywhere they needed. I pride myself on being very adaptable and easy to work with.

## Summary

I'm a creative person who loves to create, learn, and work hard. I'm not afraid of failing, I believe it is important to make mistakes and to learn from them. I know I can't succeed in everything, but that won't stop me from trying. I have a wonderful fiancé and beautiful daughter who mean the world to me. I love what I do and who I do it for. I'm very passionate about everything I put my mind to and I never give up.
